

# Smith's

## Decorative Concrete Products

**SURFACE PREP • OVERLAY • STAIN & COLOR • SEALER • MAINTENANCE**

Manufacturer of Products for Rejuvenating Old & Enhancing New Concrete

### SURFACE PREPARATION & CLEANING CHEMICALS

*\*Click on product name for more details*

**Smith's GREEN CLEAN**  
READY-TO-USE  
Organic Cleaner & Profiler  
**PRO**

Biodegradable concrete cleaner & profiler

- User friendly
- Non-corrosive
- User Friendly
- No Red Label

Smith's Green Clean Pro

**Smith's OIL CLEAN**  
Enzymatic  
Cleaner

Powerful enzymatic cleaner for removing oil, food & other hydrocarbon stains

- Easy to use
- Solvent free
- No Red Label

Smith's Oil Clean

**Smith's CT-8**  
CONCENTRATED POWDER DETERGENT  
Cleaner & Toughener  
HEAVY-DUTY CLEANER / HIGH ALKALINITY DEGREASER

Powdered concentrated cleaner for exterior textured concrete

- Aggressive Cleaner / Degreaser
- Strengthens concrete surface
- Low Odor

**Smith's NEUTRAL DETERGENT**  
Concentrated Hard Surface  
Neutral Floor Cleaner

Smith's Neutral Detergent

### OVERLAY & LIQUID RELEASE

**OVERLAY 4in1**

Multi-use polymer modified cement – just add water for spray, trowel, stamp & carve applications  
 • High polymer modification • Superior performance • Knockdown • Curb & Repair • Countertop  
 • Broom finish • Interior & Exterior application • Vehicle traffic • Water only – no additive waste

1

2

3

Smith's 4in1 Overlay - 1) Driveway / 2) Faux Wood Plank / 3) Pool Deck

**Smith's Liquid Release Agent SUPER RELEASE**

Clear release agent with Bubble Gum scent for stamp tools/mats imprinting fresh concrete or Smith's 4in1 Overlay

**Smith's Dry Pigment Packs**  
INTEGRAL COLOR POWDER PIGMENT

High quality pigments utilized to integrally color Smith's 4 in 1 Overlay

- 16 Colors

## STAINS, COLOR & ADDITIVES

**Waterborne Stains** – user-friendly, water submersible, low VOC, alkali, weather & UV Light resistant

### Smith's WATERBORNE CONCRETE STAIN COLOR FLOOR

Decorative concrete stains for achieving a natural variegated appearance  
 • UV Light Stable • 33 standard colors • Water submersible  
 • Interior & Exterior • Low odor

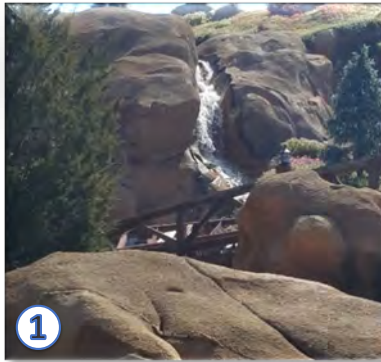

Smith's Color Floor: 1) Commercial office / food court | 2) Retail flooring | 3) Artistic compass

### Smith's COLOR WALL

Vertical Grade, Waterborne Stain  
 Low sheen concrete stains designed to achieve realistic faux rockscapes & other vertical applications

- Water-based stain / 33 colors
- Water submersible
- U.V. Light, Weather & Alkali resistant
- Low VOC
- Low Odor

Smith's Color Wall: 1) Faux rock scape & waterfall | 2) Retaining wall

Smith's stain products have been successfully utilizing advanced chemistry since the early 2000's.

- Flouropolymer Technology for increased wetting to improve adhesion to properly prepared substrates
- Nano Technology for superior durability & strength

### Smith's BASE BOOST

with FLOUROPOLYMER TECHNOLOGY  
 Lithium/Potassium Silicate-based blend  
 Concrete Densifier/Adhesion Promoter

Use for densifying concrete or as an adhesion promoter additive in Smith's Color Floor, Smith's Color Wall & part of Smith's Burnish with Color Floor™ system

Protected by Smith's Surface Guard prior to burnishing

### Smith's LIQUID DYE

Concentrated dye solution that the contractor dilutes with acetone or water

- Dye and Seal / Polish
- Fast air dry
- Interior Applications
- Vibrant Colors

Smith's Liquid Dye & Smith's Surface Guard

### Smith's Water-based Polyurethane modified with a Cross-linking Acrylic Polymer

### SURFACE GUARD

Fast-Cure  
 Ready-to-Use  
 Protective  
 Guard / Sealer

- Fast-Cure
- Low Odor & Low VOC's
- High Performance – Nano Technology
- Protects Polished Concrete & Terrazzo
- Gloss finish
- Can be high speed burnished the following day

## SEALERS - VOC Compliant

**Penetrating Sealers** - Extends substrate life cycle, reduces maintenance costs

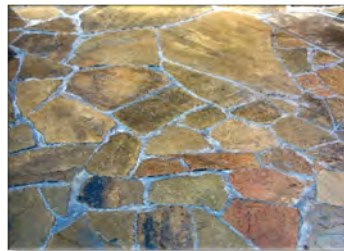

- Water Repellent yet Breathable
- Natural Appearance
- Water-based Siloxane

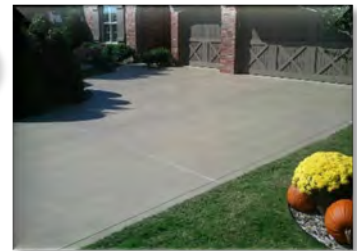

- Oil, Water & Stain Repellent
- Natural Appearance
- Water-based
- Breathable - Mitigates Efflorescence transfer

- Water & Stain Repellent
- Enhances natural color tone
- For exterior porous stone, pavers & concrete
- Breathable - Mitigates Efflorescence transfer

Hybrid penetrating sealer that can be applied as a clear, non-darkening sealer to concrete & other porous substrates

Penetrating, Solvent-based Silicone sealer for Vertical Masonry

- Colorless - No change to texture nor appearance
- Water Repellent yet Breathable
- Low VOC's
- Nearly 6 year Effective Life

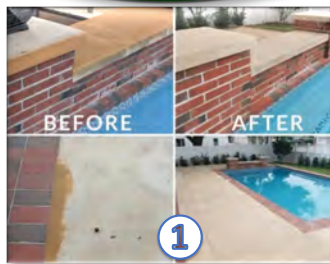

Reduces Biological Growth, Salt Damage, Dirt Pickup, Efflorescence, Discoloration & Chemical Degradation

Penetrating, Solvent-based Siloxane sealer for porous Concrete, Masonry & Stone

- Colorless - No change to texture nor appearance
- Oil, Water & Stain Repellent
- Breathable - Mitigate Efflorescence transfer

Mix Nature Shield with Color Floor to achieve Smith's Color Shield System

Smith's Color Shield: 1) Natural Gray / 2) San Diego Zoo Entrance

**Film Forming Sealers** - Extends substrate life cycle, reduces maintenance

38% Solids Solvent-based Sealer for pavers, stamped & other decorative concrete

- Solvent-based Polyurethane
- Infinite recoat ability
- "Wet Look" Color Enhancing

High Performance Polyester Polyurethane sealer

- U.V. Stable for Interior / Exterior
- Durable
- Chemical Resistant
- 1 hour Pot-Life

Ready-to-Use Polyurethane Acrylic modified sealer

- No color enhancement / darkening
- U.V. Stable & Non-Yellowing
- Primer for Poly-WB (direct-to-concrete)

1) Poly-SB Gloss - Stamped concrete refreshed | 2) Poly-WB Low Sheen over 4in1 Overlay & Color Floor | 3) Poly-SEAL over Color Floor

**TRACTION ADDITIVES** For use in Film Forming Sealers only

Available in:

- 45 Grit
- 60 Grit
- 45/60 Grit blend

Available in:

- Fine Grit (50/70 Mesh)
- Mild Grit (40/70 Mesh)
- Course Grit (20/30 Mesh)

MISCELLANEOUS

SOLID COLOR PACKS

For Smith's Poly-SB:

For Smith's Poly-SEAL or Smith's Poly-WB:

1) Pavers – Poly-SB Gloss | 2) Rockscape – Color Wall with Poly-SEAL/LS | 3) Faux Geyser – Color Floor

Smith Paint Products began manufacturing paint in 1929 to supply the Central Pennsylvania marketplace. Today, we focus on the formulation & production of premium specialty coating products.

Our products are used worldwide in a variety of applications ranging from Food & Beverage to Industrial Manufacturing facilities to decorative concrete applications at Amusement & Theme Parks to Statues & much more.

We realize to make a superior product, our standards must remain consistent by utilizing first-class manufacturing processes & quality raw materials along with stringent control measures. Our low overhead & exceptional buying power affords Smith Paint Products the ability to offer a premium product at an exceptional value. At Smith Paint Products, company excellence is accredited to superior quality products & customer care. Not only do we formulate & manufacture specialty coatings, **#WeMakeFloorsBetter**
